HORIZON
X-ray System

Simplicity. Affordability. Reliability.

TRUSTED ANALOG X-RAY SYSTEM DESIGNED FOR THE FUTURE

Affordable Performance, Efficient Design

The new HORIZON X-ray System delivers what you need today—with an eye toward the future of your radiology practice. This simple and highly affordable analog X-ray system provides all the key functionality you need to diagnose with confidence and provide exceptional patient care.

Designed for small- to mid-sized imaging centers, orthopedic facilities, urgent care centers and hospitals, the HORIZON X-ray System offers exceptional image quality to boost productivity and superb flexibility for all major exams. Plus, the system is digital-ready for a complete CR/DR-print solution as your radiology needs evolve.

Advantages at a Glance

- Fully manual X-ray system with analog console
- Simple, affordable, high-performance solution
- Reliability, easy installation and maintenance
- Available in table or wall stand configurations
- DR ready for both conventional and digital applications

Simplicity in X-ray Imaging

The HORIZON diagnostic X-ray system is a simple, user-friendly solution that meets the moment for analog radiography. Its floating table top allows for fast positioning. The system is also available without the table in a floor-mount configuration for chest only X-rays or chiropractic imaging. The system comes with over 1,000 APRs for optimized image quality at a low dose and has moving grids for both table and vertical stand bucky.

Affordable for Limited Budgets

It's no longer cost prohibitive to step up to the benefits of a full X-ray suite with advanced features. The HORIZON X-ray System's affordable price meets the needs of any hospital or imaging center with a limited budget. It delivers a compact, robust, flexible and upgradable solution with modern design and functionality—all at a cost you can afford.

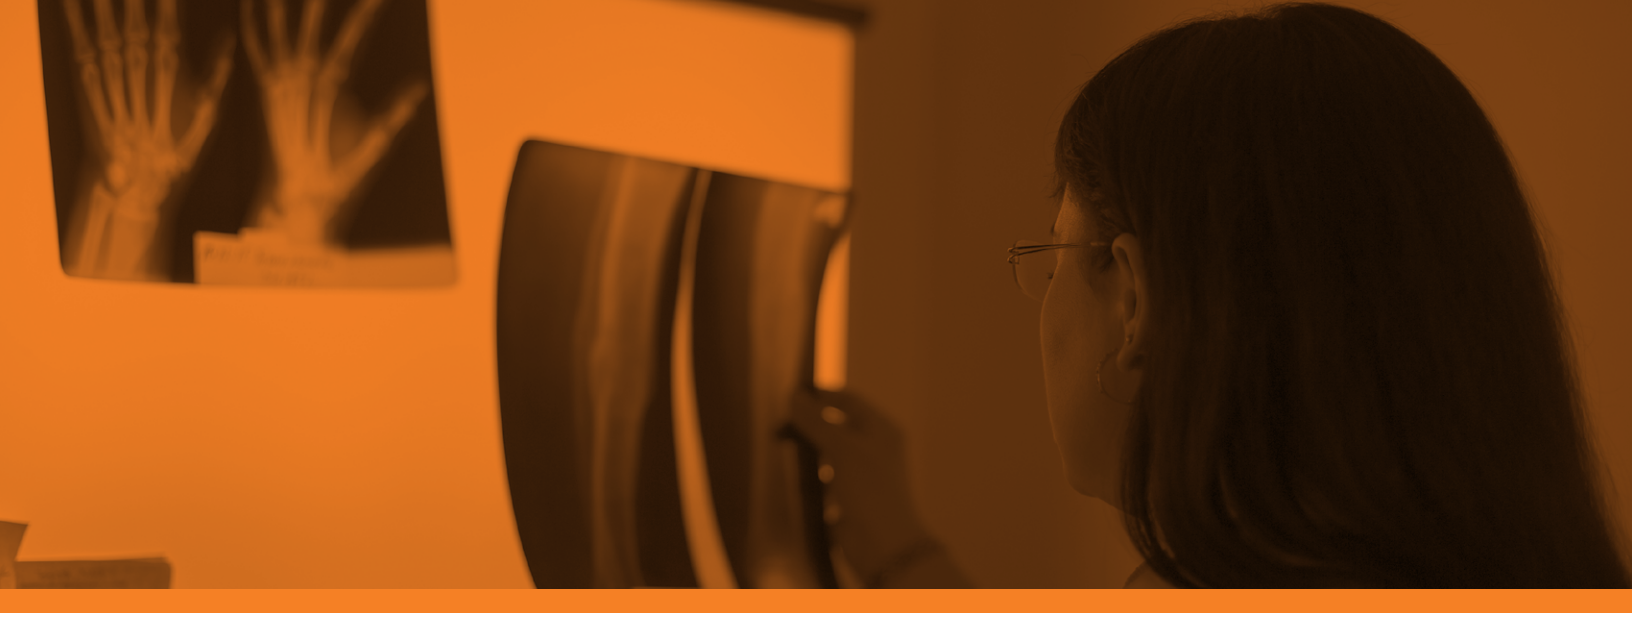
High Performance, Flexible Efficiency

The HORIZON system enables superb image quality. High frequency generators are made available with different power options according to your needs. Same for tube types. The system's compact design fits easily in small rooms and requires no additional ceiling support. Its intuitive and user-friendly control console provides a simple to operate analog X-ray solution. The HORIZON system is also extremely easy to install and maintain.

Ready for the Future of Radiography

You can turn your conventional X-ray system into a digital workflow at the time of purchase—or anytime in the future. Simply bundle your X-ray room with one of our retrofit solutions:

- CARESTREAM Vita Flex CR technology with Image Suite Software and MiniPACs archiving capability
- Focus Detectors with WiFi capability and Cesium scintillator with Image Suite Software and MiniPACs archiving capability



Digital Upgrade Solutions

Vita Flex CR System and Focus 35C/43C Detectors Powered by Image Suite Software.

Upgrade to an Affordable CR/DR Capture-to-Print Solution.

Stepping up to digital X-ray is a tremendous way to speed your workflow, increase productivity and support a higher standard of care. But if you're a smaller facility, the cost of upgrading can be a real barrier—but no longer. Our exceptionally budget-friendly Vita Flex CR System and Focus 35C & 43C Detectors, powered by ImageSuite Software and bundled with our DryView Laser Imaging Systems and DryView Film will let you tap into the full power of Capture-to-Print Solutions—easily and affordably.

Ideas That Clearly Work

You can count on Carestream for exceptional technology for medical imaging. As a worldwide provider of X-ray imaging systems, we are passionately committed to helping our customers be successful. With the new HORIZON X-ray System added to our extensive portfolio, your small healthcare facility can take advantage of high equipment reliability, low maintenance costs and affordable performance for your analog X-ray room—with the option to evolve to digital radiography in the future.

A Community of Service and Support

For dependable service, look to our Customer Success Network. We work continuously to improve your imaging performance, help you to innovate as needs change, and make the most of your budget and resources. Carestream's Customer Success Network surrounds you with a dynamic team of experts, with a Single Point of Entry for easy, customized access to the right people in every situation. You and your patients will benefit from the expertise and best practices only Carestream can deliver – based on thousands of customer engagements worldwide and our 100-year heritage in medical-imaging innovation.
